## LINQ ${ }^{T M}$ Bed Platform \& Frame and Mattress Height Guide

LINQ bed's unique platform and frame adjust across a six-inch range, accommodating mattresses from 10 " $-16^{\prime \prime}$ in height. Use this chart to determine the ideal configuration for your bed based on your desired mattress size. The recommended height for the top of the mattress is around 24 "from the floor.

A PLATFORM: The inner bed support system, which includes the side and center supports and slat system, can be positioned at two heights.
B FRAME: The outer wood frame that surrounds the platform and attaches to the headboard,
 can be positioned at two heights.
